

Scrum

Goals

1. List 3 SCRUM roles
2. List 4 SCRUM ceremonies
3. Which ceremonies are for pigs? Chickens?
4. What's the most important SCRUM artifact?

Roadmap

1. Overview
2. Roles
3. Ceremonies
4. Concluding Thoughts

Overview

Overview

- Term goes back to 1986
- Designed for teams of 7 (+/- 3)
- Methodology that's
 - Lightweight
 - Iterative
 - Self-organizing

Naming

- Term emphasizes teamwork
- Close collaboration

Rules

Scrum's Simple Rules

3 Roles • 5 Events • 3 Artifacts

Without embracing the Scrum values and operating according to the 3-5-3, you aren't doing Scrum.

Video

- Scrum Overview
- Scrum Intro
- Scrum in Under 5 Minutes
- What is Scrum

Roles

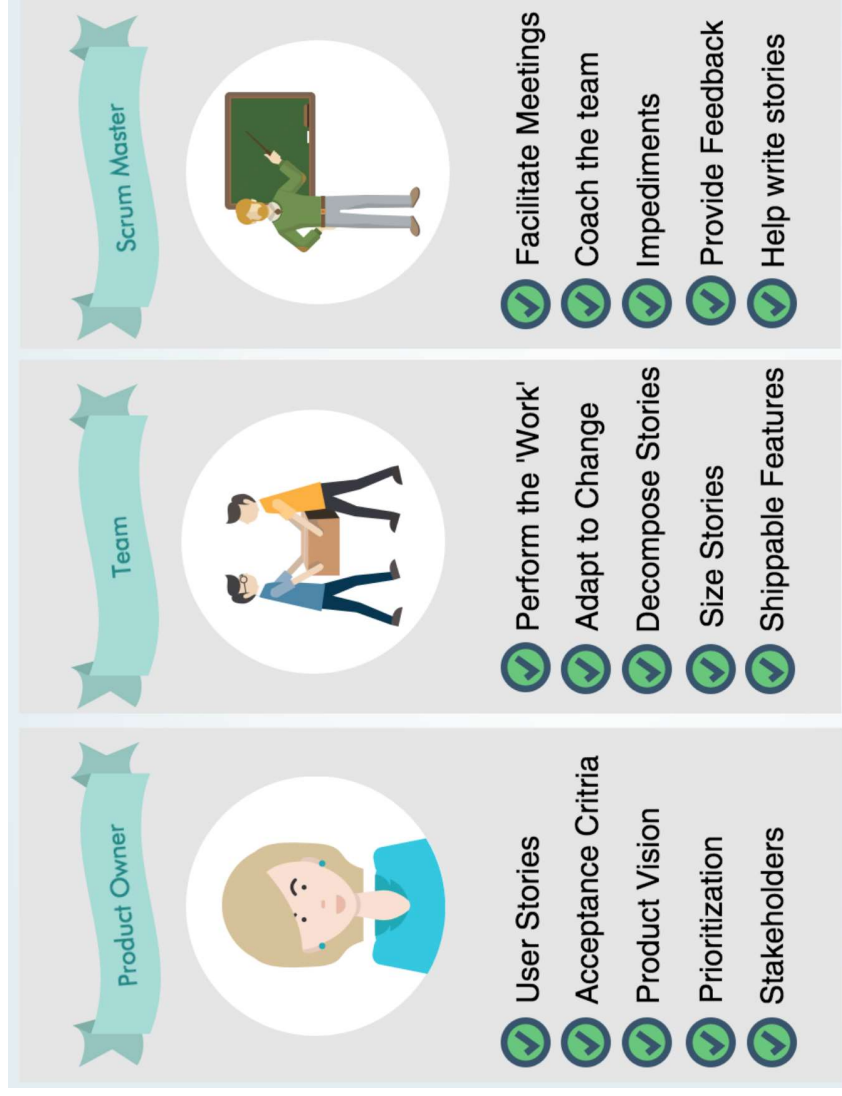

Players

- Product owner
- Developers
- Scrum master

Roles

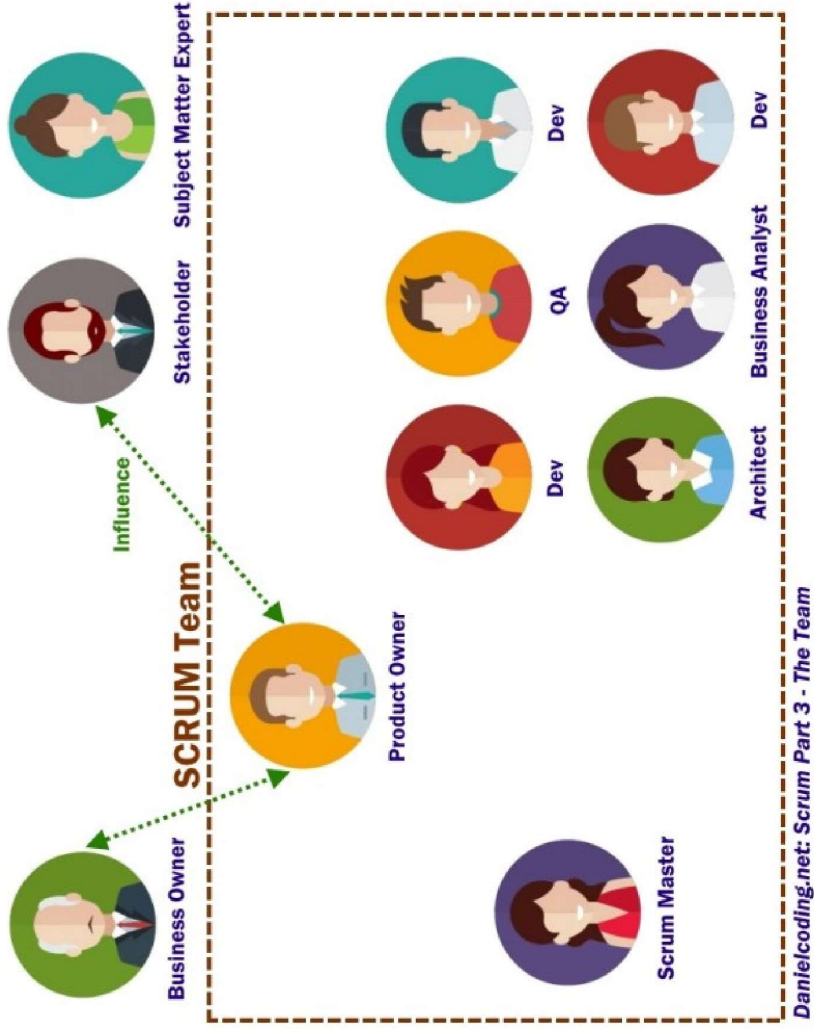

Video

- Scrum Roles Explained

In Real Life

- Often the product manager *isn't actually* the end-user
- I.e. when the product is delivered, the product manager starts on the next project
- Customers actually have to live with what they get

Example

- HR Onboarding software
 - Alice is the product manager
 - Bob from IT will support the product
 - Hector uses software as a hiring manager
 - Jane from HR uses the software to onboard people

Ceremonies

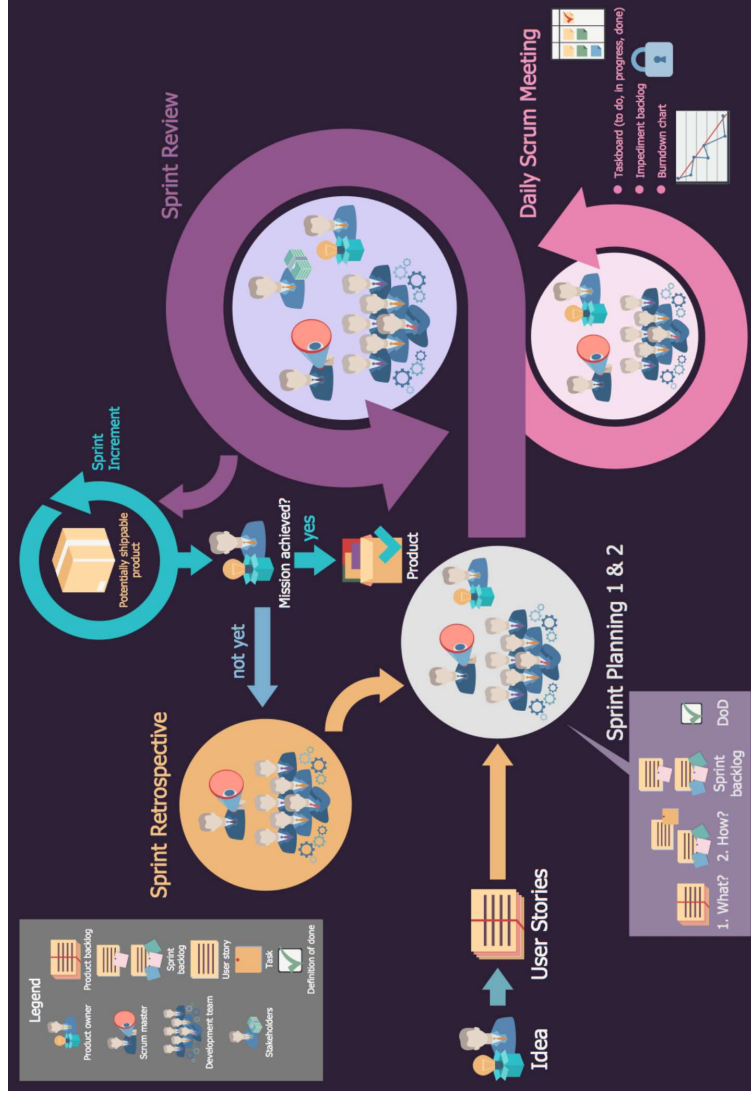

Overview

- Planning
- Daily Standup
- Review
- Retrospective
- Refinement

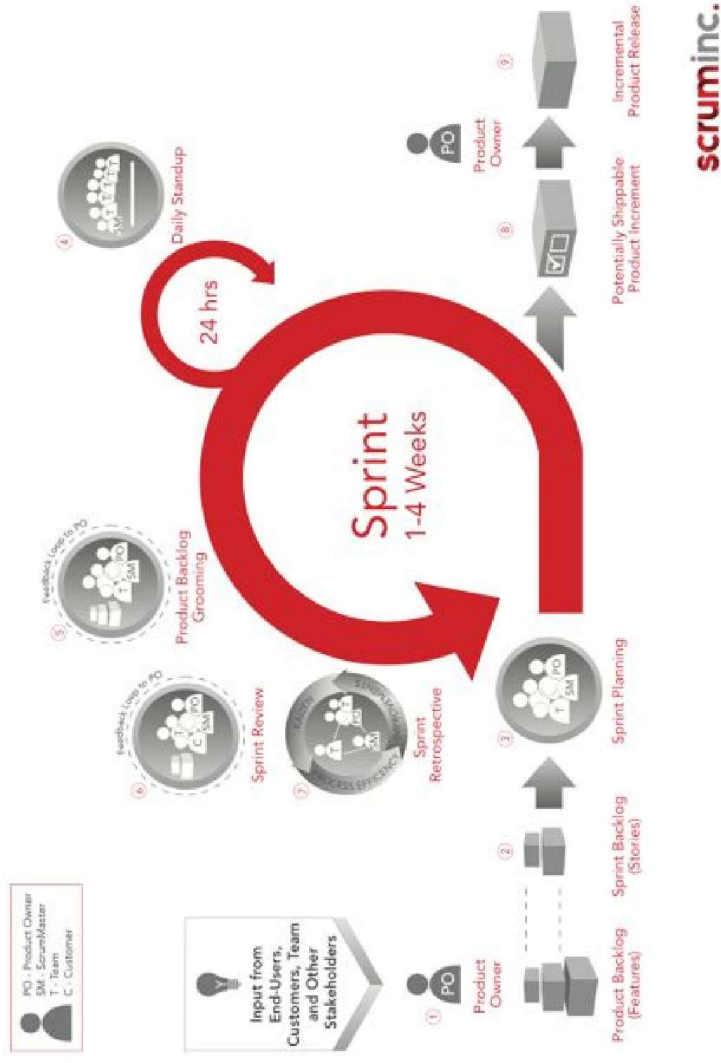

Ceremonies

How Scrum Works

Concluding Thoughts

Overview

- Hype and Reality
- Rainmakers and Exorcism
- Expectation Maturity

Hype cycle

1. Conception
2. Niche adoption
3. Evangelism
4. Widespread adoption
5. Disappointment
6. Acceptance

Examples

- OOP
- Microservices
- Containerization
- SOA
- SPAs
- NoSQL

Rainmakers

- Grift elements
 - Sell a product
 - Take credit when successful
 - Avoid blame on failure

Senfeld on Scrum

Realistic Expectations

- Good advice generally
- Scrum is pretty Good
- Maybe it adds 10%

Review

1. List 3 SCRUM roles
2. List 4 SCRUM ceremonies
3. Which ceremonies are for pigs? Chickens?
4. What's the most important SCRUM artifact?
